## STEIN ERIKSEN LODGE LAUNCHES FRESH RENOVATIONS THIS SPRING

PARK CITY, Utah (January 1, 2020) – Stein Eriksen Lodge, Utah’s only Forbes Five-Star resort and spa and designated one of Forbes’ Most Luxurious Hotels in the World, will refresh some of its key Main Lodge common areas and public spaces for enhanced comfort and ambiance. When the 2019-2020 ski season comes to a close, the transformative revamp will begin this April and be completed by mid-summer of 2020.

“We’re always looking for innovative ways to improve and create comfortable, welcoming gathering spaces for our guests and groups of every size,” said Russ Olsen, CEO of Stein Collection. “We look forward to our plans being unveiled and enjoyed later this summer.”

A versatile patio covering will be installed with built-in lights and heat, creating a comfortable outdoor atmosphere for any time of day. The Main Lodge will see fresh paint, all new wood and wainscoting refinishing, a new Concierge desk, upgrades to all five Grand Suites, enhanced lighting, and all new furniture, carpet, and window treatments for an elevated experience in luxury.

Renovation efforts will only impact the center walkway and pass-through area of the Main Lodge. The enhancement project will not infringe on family spaces, restaurants, outdoor lawn and decks, or Mountain Lodge main meeting venue event spaces.

For more information on Stein Eriksen Lodge's renovation plans, please contact Jessica Turner at (435) 604-2793 or [jturner@steinlodge.com](mailto:jturner@steinlodge.com). Further information on Stein Collection is available at [www.SteinCollection.com](http://www.SteinCollection.com).
